JACKSON FOUR  
POINTS AHEAD  
OF TYRUS COBB

ACCORDING TO WEEK'S UNOFFICIAL STATISTICS, AMERICAN LEAGUE MAN JUST A TRILE AHEAD IN HITTING LINE.

BY ASSOCIATED PRESS.  
Chicago, Sept. 6.—Joe Jackson leads American league batters by four points according to the week's unofficial statistics, published here today. The Cleveland man's record shows a percentage of .387 for 125 games against 335 for Cobb in ninety-six games. Other "three hundred hitters" in the American league are Speaker, Boston, .382; Hendricks, Boston, .361; Lajoie, Cleveland, .358; Candi, Washington, .359; E. Collins, Philadelphia, .355; Baker, Philadelphia, .333; McInnis, Philadelphia, .327; Crawford, Detroit, .315; D. Murphy, Philadelphia, .305; E. Murphy, Philadelphia, .302; Stovall, St. Louis, .301.

**Zim a Big Feature.**  
Zimmerman's advance toward the top in the National league is a feature. The 1912 champion is hitting .315, but is eleventh in rank. Deibert, the real leader, is within three points of first place, held by Yingling, the Brooklyn pitcher, with an average of .372 for twenty-nine games. Deibert's average is .369 for 119 games. Other National leaguers in the 300 class are: McDonald, Boston, .362; Hyatt, Pittsburgh, .349; Cravath, Philadelphia, .336; R. Miller, Philadelphia, .333; Heas, Boston, .323; Walsh, Philadelphia, .320; Viox, Pittsburgh, .320; Magee, Philadelphia, .319; Zimmerman, Chicago, .315; Becker, Philadelphia, .312; Gibson, Pittsburgh, .308; Titus, Boston, .306; Wheat, Brooklyn, .305; Leach, Chicago, .305; Tinker, Cincinnati, .304; Parritt, St. Louis, .304; Huggins, St. Louis, .302.

**Leading Pitchers.**  
Johnson leads the American league pitchers in games won and lost, and Demaree and Humphries are ahead in the National.

First five pitchers in the American league:

LAST WEEK OF  
THE TWILIGHT

ALAGAS TEAM HAS PENNANT WON, BUT ARE SCHEDULED FOR TWO MORE APPEARANCES ON PLAYGROUNDS FIELD.

This is the last week this season of the Twilight league, the Alagas winning the pennant. Five more games are scheduled before the season comes to a close.

The Alagas having "clinched" the pennant in the Twilight league. Now remains the fight for second place between the White & White team and the Millers. The present standing shows the White & White team in second place. There are two games remaining of the four scheduled games between these two teams. For that reason the Millers will meet the White & Whites twice this week, Tuesday and Friday, to determine who is to occupy second position.

The league will be officially closed this week if the second and third positions are decided, and the cup presented to the champion Alagas.

The schedule for the coming week is as follows:

Monday—Chero-Colas vs. Alagas.  
Tuesday—Millers vs. White & White.  
Wednesday—Whitmans vs. Chero-Colas.  
Thursday—Alagas vs. Burrow Press.  
Friday—Millers vs. White & White.

Games will be called promptly at 5:15 o'clock so all players are urged to be on hand in time that this may be done.

Studebaker  
A Car Not too Large, Not too Costly,  
and Splendidly Efficient

The beautiful lines and handsome finish of the Studebaker "25" always get attention the moment they are seen.

You will admire them—so will your friends.

And when you experience the smooth, silent, vibrationless power of this car, we are certain that it will set you to thinking.

The Studebaker "25" is a splendidly efficient car, and incidentally a shining opportunity for you and every other man who wants a high grade car, reasonable to purchase and easy to maintain.

For what more can a man desire than a car, a

**Studebaker Standards**  
The Studebaker "25" is as well built, with the same pains-taking attention to details, as every other Studebaker car, no matter what the price.

The design of the Studebaker "25" motor can be compared in excellence only with one or two of the most famous foreign cars.

The position of the pump and magnet on a silent cross shaft in front of the motor has forever answered the question of where they should be placed. Your examination will bear out this contention.

The sides of the block-cylinders are clean and the enclosed valves quickly accessible.

There are over 225 drop forged parts in the Studebaker "25" and every one of these light, strong forgings is heat-treated in our own huge ovens from three to six times.

Studebaker "25" has become widely known as a glutton for work.

It is powerful in that high degree which renders it capable of accomplishing every motoring task you set before it, with a rush which is as easy as it is successful.

It will thread in and out of traffic on high gear without laboring, and across country will take the hills without trouble or hesitation.

Not the least satisfying feature of the "25" is its quiet and full response to the throttle.

Comfort and Convenience  
The long, resilient springs, cushion any road-motion and the deep upholstery adds full comfort to the admitted driving power of the car.

The Studebaker Jiffy curtains can be put in place quickly from inside the car.

The throttle and spark levers are where they belong, above the steering wheel.

In finish also, this car is quite up to Studebaker standards. The "25" is in every way a car for long use and complete satisfaction.

MULAT FOLKS  
SEE AEROPLANE

CLAIM THAT THURSDAY NIGHT'S HEAVENLY ATTRACTION WAS NEITHER METEOR NOR AEROLITE, AND SUBMIT PROOF OF CLAIM.

Besides, although the aeroplane moved rapidly, it moved far too slowly to be mistaken for a meteor. An aerolite, popularly called a meteor, would have passed across the heavens and beyond view in less time than it took this aeroplane to go 100 yards.

However, if this aerial traveler in a biplane, that moves slowly horizontally, should turn out to be a meteor, or "shooting star," prancing across the firmament, merely as an object lesson in astronomy, then a war with Mexico is an assured fact, and the country can prepare itself to see the pension list increased.

SPECIAL TO THE JOURNAL.  
Mulat, Sept. 6.—The Journal correspondent notices that mention is made that a meteor passed across the heavens last Thursday night in the vicinity of Pensacola and was seen near Cottage Hill going from southeast to southwest; and it is described as a brilliant light with a long tail. Now the object that passed across the heavens near Mulat last Thursday night was certainly not a meteor nor aerolite; nor did it pass from southeast to southwest, but from southeast to northwest. It was undoubtedly an aeroplane, for by the light on the machine part of the framework of the airship was plainly visible; and in passing Mulat the aeronaut shifted his planes slightly, causing a slight divergence from his horizontal sailing.
